

AMENDMENTS TO THE CLAIMS:

This listing of claims shall replace all prior versions and listings of claims in the application:

LISTING OF CLAIMS:**Claim 1 (original):**

A viscous and glassy composition for oral administration comprising itraconazole, an acidifying agent, an amphiphilic additive, a surfactant and an oil.

Claim 2 (original):

The composition of claim 1, wherein the itraconazole bioavailability ratio before and after food ingestion is 0.8 or higher.

Claim 3 (original):

The composition of claim 1, wherein the viscosity measured at 25°C is at least 10,000 cps.

Claim 4 (original):

The composition of claim 1 which has self-microemulsifying capability to form microemulsion particles when orally administered in the body fluid.

Claim 5 (currently amended):

The composition of claim 1, wherein the itraconazole : acidifying agent : amphiphilic additive : surfactant : oil ratio by weight is in the range of 1 : 0.5~15 : 0.5~20 : 0.5~15 : 0.5~15.

Claim 6 (currently amended):

The composition of claim 1, wherein the acidifying agent is selected from the group consisting of phosphoric acid, hydrochloric acid and an aqueous solution thereof.

Claim 7 (currently amended):

The composition of claim 1, wherein the amphiphilic is selected from the group consisting of transcutol, dimethyl isosorbide, glycofurool, propylene glycol, propylene carbonate, solutol and a mixture thereof.

Claim 8 (currently amended):

The composition of claim 1, wherein the surfactant is selected from the group consisting of polyoxyethylene glycolated natural or hydrogenated vegetable oils, polyoxyethylene-sorbitan-fatty acid esters, polyoxyethylene fatty acid esters and a mixture thereof.

Claim 9 (currently amended):

The composition of claim 1, wherein the oil is selected from the group consisting of tocopherol, a derivative thereof[[;]], and a mixture thereof.

Claims 10-11 (canceled)

Claim 12 (previously added):

The composition of claim 1, which is prepared by (a) dissolving itraconazole uniformly in a mixture of the acidifying agent, the amphiphilic additive and a volatile solvent, (b) further dissolving the surfactant and the oil in the resulting solution, and (c) removing the volatile solvent therefrom.

Claim 13 (previously added):

The composition of claim 12, wherein the volatile solvent is a C₂ or C₃ alcohol.
